01 BRAND ANALYSIS

A community brand with a story worth telling — under-told on social.

Bucketlist sells transformation, not just trips: curated group and private adventures that turn strangers into friends. The product is emotional and highly visual — which makes it perfect for Instagram, and a missed opportunity if the feed only shows destinations.

CATEGORY	Curated outbound adventure & experiential travel — licensed Saudi operator (CR 2052103390).
OFFER	All-inclusive group trips to curated destinations (Mexico, Cuba, Morocco, Iceland, Norway, China) + private trips (min 4, 1-month notice).
AUDIENCE	Adventure-minded Gulf/Saudi adults, 22-40, with disposable income; bilingual (Arabic + English); solo travelers & friend groups.
PROOF & TRUST	2-3 installment payments, full refund at 30+ days, guided & culturally-respectful itineraries; from ~12,000 ريال.
tone	Warm, enthusiastic, community-first — "What's on your bucketlist?"

The social opportunity

- Emotion is the product. Friendships and firsts are more shareable than skylines — we lead with people, not just places.
- Trust closes travel sales. Installments, refunds, "what's included" and real reviews turn interest into DMs.
- Reels for reach, carousels for depth. A 50/50 mix compounds discovery and saves — the two metrics that grow a travel account.
- Bilingual by design. Arabic-first captions with English support widen reach across the Gulf.
- Consistency beats bursts. A steady 5-a-week rhythm trains the algorithm and the audience.

03 STRATEGY & CONTENT PILLARS

Six pillars that move people from scroll to seat.

Each pillar has a job in the funnel — from stopping the scroll to sealing the booking. Every month's 20 posts are balanced across all six.

PILLAR 01  Wanderlust & Destinations Cinematic destination teasers and "why go" moments that stop the scroll and plant the dream. Reach · Awareness	PILLAR 02  Community & Social Proof Traveler stories, friendships and testimonials — the "people, not places" engine that builds trust. Consideration	PILLAR 03  Trust & How-it-works All-inclusive value, installments, refunds and the booking process — the objection-handlers. Consideration
